

John R. Taylor

•

Reader in Oceanography
Department of Applied Mathematics and Theoretical Physics
Fellow and Director of Studies in Mathematics, St. John's College
University of Cambridge
Centre for Mathematical Sciences,
Wilberforce Road, Cambridge, CB3 0WA

•

Office: +44 (0) 1223 337 030
Email: J.R.Taylor@damtp.cam.ac.uk

EDUCATION

- Ph.D. Mechanical and Aerospace Engineering, University of California, San Diego, 2008
- M.S. Mechanical and Aerospace Engineering, University of California, San Diego, 2004
- B.S. Engineering Physics, Santa Clara University, 2001
Computational Physics Emphasis, University Honors Program

PROFESSIONAL EXPERIENCE

Reader in Oceanography, 2017 -
Department of Applied Mathematics and Theoretical Physics, University of Cambridge
Director of Studies in Mathematics, 2017-
College of St. John the Evangelist, University of Cambridge
Teaching (Title B) Fellow, 2013-
College of St. John the Evangelist, University of Cambridge
University Lecturer in Oceanography, 2011-2017
Department of Applied Mathematics and Theoretical Physics, University of Cambridge
Postdoctoral Research Associate, 2010-2011
Department of Earth, Atmospheric and Planetary Sciences, Massachusetts Institute of
Technology
NSF Mathematical Sciences Postdoctoral Research Fellow, 2008-2010
Department of Earth, Atmospheric and Planetary Sciences, Massachusetts Institute of
Technology
National Defense Science and Engineering Graduate Fellow, 2003-2007
Department of Mechanical and Aerospace Engineering, University of California, San
Diego
Visiting Scientist, 2000-2002
University Corporation for Atmospheric Research, Fleet Numerical Meteorology and
Oceanography Center, U.S. Navy, Monterey, CA
Research Assistant, 1998-2000
Chemical Oceanography, Oregon State University
Research Assistant, 1995-1997
Atmospheric Science, Oregon State University

JOURNAL ARTICLES

1. Whitt, D.B., and J.R. Taylor (2017) Energetic submesoscales maintain strong mixed layer stratification during an autumn storm, *J. Phys. Ocean.*, *in press*.
2. Bachman, S.D., J.R. Taylor, K.A. Adams, and P. Hosegood, 2017, Mesoscale and submesoscale effects on mixed layer depth in the Southern Ocean, *J. Phys. Ocean.*, *47*,

- 2173-2188.
3. Kaminski, A.K., C.P. Caulfield, and J.R. Taylor, 2017, Nonlinear evolution of linear optimal perturbations of strongly stratified shear layers, *J. Fluid Mech.*, 825, 213-244
 4. Taylor, J.R., and Q. Zhou, 2017, A multi-parameter criterion for layer formation in a stratified shear flow using sorted buoyancy coordinates, *J. Fluid Mech.*, 823, R5
 5. Whitt, D.B., J.R. Taylor, and M. Levy, M, 2017, Synoptic-to-planetary scale wind variability enhances phytoplankton biomass at ocean fronts, *J. Geophys. Res.*, 122, 4602-4633
 6. Adams, K.A., P. Hosegood, J.R. Taylor, J.-B. Sallee, S.D. Bachman, R. Torres, M. Stamper, 2017, Frontal circulation and submesoscale variability during the formation of a Southern Ocean mesoscale eddy, *J. Phys. Ocean.*, 47, 1737-1753.

PROFESSIONAL ACTIVITIES

- Peer Review College, Natural Environment Research Council, 2012 – 2015.
- Member of organizing committee and head of computational projects, Fluid Dynamics of Sustainability and the Environment Summer School, DAMTP, University of

Cambridge, 2012 – 2017.

RESEARCH GRANTS

- 2016 – 2019 Principal Investigator, Understanding the Ice-shelf Ocean Boundary Layer, Natural Environment Research Council (£371,126)
- 2015 – 2018 Co-Investigator, Gulf of Mexico Research Initiative, CARTHE consortium (£366,636)
- 2013 – 2018 Co-Investigator, Mathematical Underpinnings of Stratified Turbulence (MUST), Engineering and Physical Sciences Research Council (£2,324,418)
- 2013 – 2016 Co-Investigator, Surface Mixed Layer Interactions at Submesoscales (SMILES), Natural Environment Research Council, (£316,215)
- 2013 – 2015 Royal Society, Newton International Fellowship for Rica Mae Enriquez (£99,000)
- 2013 Research Grant, Isaac Newton Trust, (£20,773)
- 2011 – 2012 Starting grant, Engineering and Physical Sciences Research Council Fund, University of Cambridge, (£50,000)

TEACHING ACTIVITIES

- 2012 – 2015 Lecturer – Mathematics for Natural Sciences, University of Cambridge, UK
- 2012 – 2016 Lecturer – Fluid Dynamics of Climate, University of Cambridge, UK
- 2012 – 2016 Lecturer – Ocean Dynamics, Fluid Dynamics of Sustainability and the Environment Summer School, University of Cambridge, UK and École Polytechnique, France.
- 2013 – 2016 Supervisor – Differential Equations, St. John's College, Cambridge, UK.
- 2013 – 2016 Supervisor – Fluid Dynamics, St. John's College, Cambridge, UK.

ADMINISTRATIVE ROLES

- Part III committee, 2011 - 2014
- Graduate Education Committee, 2014 - present
- Applied mathematics coordinator for 3rd and 4th term reports and PhD registration, 2014 - present
- Examiner, Part 1B Mathematics, Natural Science Tripos, 2013
- Senior Examiner, Part 1B Mathematics, Natural Science Tripos, 2014

INVITED LECTURES

- National Meeting of the Royal Meteorological Society, 16 April 2014, London
- IUGG Conference on Mathematical Geophysics, 6-10 June, 2016, Paris, France
- Turbulence and the Climate System, 24-26 August, NCAR, Boulder, CO, USA

AWARDS AND HONORS

- Andreas Acrivos Dissertation Award in Fluid Dynamics, American Physical Society, 2008.
- Mathematical Sciences Postdoctoral Research Fellow, National Science Foundation, 2008-2011
- National Defense Science and Engineering Graduate Fellow
- Sigma Pi Sigma, National Physics Honor Society

ADVISORY ROLES

- Co-supervisor: Chris Howland (PhD student, 2016 –)
- Supervisor: Matthew Crowe (PhD student, 2015 –)
- Supervisor: Qi Zhou (PDRA, 2015 –)
- Supervisor: Megan Stamper (PhD student, 2013 –)
- Supervisor: Scott Bachmann (PDRA, 2013 – 2017)
- Supervisor: Daniel Whitt (PDRA, 2015 – 2017)
- Supervisor: Alexis Kaminski (PhD student, 2012 – 2016)
- Supervisor: Callum Shakespeare (PhD student, 2012 – 2015)

Supervisor: Rica Enriquez (PDRA, 2013 – 2015)
Supervisor: Enrico Deusebio (PDRA, 2014 – 2015)
Supervisor: Romain Watteaux (PDRA, 2012 – 2013)
